

One day interactive and workshop based training on Corporate Sustainability Due Diligence.

GIST OF THE TRAINING DAY:

Integrating human rights and environment due diligence:

- Contractual assurances from a business partner with whom it has a direct business relationship
- Make necessary investments to comply
- Identifying actual or potential adverse impacts:
 - 1 Risk awareness
 - 2 Risk analysis
 - 3 Risk management: Preventing and mitigating potential adverse impacts
- Establishing and maintaining a complaints procedure
- Monitoring the effectiveness of their due diligence measures.

Real life case studies from high risk markets will be used in the workshops. Upon completion each participant will be awarded a **diploma**.
